## AT TURNING POINT IN FARM RELIEF BATTLE

### ADMINISTRATION FORCES MUSTER FULL STRENGTH

FIGHT AGAINST \$375,000,000 REVOLVING FUND PROVISION IN HAUGEN BILL

MEMBERS OF FARM BLOC PURPOSE TO REDUCE THE FUND TO \$175,000,000

By WILLIAM J. McEVOY  
(United Press Staff Correspondent)  
Washington, May 20.—The turning point in the farm relief legislation fight was reached in the house today.

Administration forces marshaled their full strength against the \$375,000,000 revolving fund provision of the Haugen price stabilization bill, the heart of the measure. Members of the farm bloc, who are supporting the bill, propose to reduce the fund to \$175,000,000 and look for attempts from the administrative group to eliminate it entirely.

Nearly all of the Pennsylvania delegation returned for the battle but some doubt was expressed that they would line up solidly with the administration forces. As a result of the defeat of Sen. Pepper, the administration choice in the Pennsylvania senatorial primaries, farm bloc leaders expected to gain recruits for the Haugen bill.

With Pepper's defeat, the Haugen people claimed that some of the delegation and many mid-western members who have been going along with supporters of the Tinscher credit bill, would switch to the Haugen measure.

The entire day will be consumed in thrashing out the revolving fund controversy.

Washington, May 20.—With little opposition the house farm bloc today succeeded in reducing the revolving fund appropriation in the Haugen price stabilization bill from \$375,000,000 to \$175,000,000.

Amendments reducing the fund were adopted by viva voce votes after little discussion.

Later administration leaders plan to attempt to eliminate the \$175,000,000 fund from the measure.

## French Bombard Damascus Recently, 600 Killed

### CHICAGO BANDITS STEAL \$25,000 IN GOLD LEAF

Chicago, May 20.—(UP)—Employees entering the office of Price & Co., gold leaf manufacturers, today were greeted by six bandits, who were waiting in the office of the plant.

The bandits worked about 40 minutes, bothered in the work by being forced to command employees to either go into another room or to lie on the floor, and then escaped with \$25,000 in gold leaf.

There were no shots fired. The girl employees were ordered into a room off the office and held captive by one of the six bandits, while the men employees were made to lie on the floor of the plant.

### NATION IS TO SPEND MUCH TO AID FARMER

GOVERNMENT TO DEVOTE \$140,000,000 TO RELIEVE DEPRESSION

CONGRESS, WITH AN EYE ON ELECTION YEAR, SEEKS TO EXTEND RELIEF

By JOSEPH S. WASNY  
(United Press Staff Correspondent)  
Washington, May 20.—The government will spend nearly \$140,000,000 during the next fiscal year beginning July 1 in an effort to relieve the depression of the agricultural industry and to place farmers on a plane with other business.

Congress apparently with at least one eye on election year, provided the agriculture department with more than \$1,000,000 above the appropriation for this year and distribution of funds is about to begin.

Secretary Jardine announced today that livestock industries would receive \$1,200,000 in federal aid for tubercular eradication work among cattle. About \$200,000 will be spent in printing and distributing books on diseases of horses and cattle.

Good roads, a necessity to farmers, will get \$80,000,000 from the government next year.

So farmers can obtain livestock information and market news \$37,402 will be spent to expand department news service from Buffalo, Pittsburgh, Cincinnati, Cleveland, Indianapolis and St. Joseph.

Money for study of every possible type of agricultural disease will be available next year and Jardine believes that through co-operation in this line the department will be able to save farmers millions of dollars.

### DECISION ON REMOVAL OF DEFENDANTS

St. Paul, May 20.—(UP)—Decision on the removal of eight men to Cleveland to be tried on indictment returned in connection with the nation-wide "gin trust" was reversed today by U. S. Commissioner W. T. Goddard after Ben Gleeman, serving a term for murder, indicted Leon Gleckman, one of the eight, as a member of the "ring." The eight defendants are from St. Paul and Minneapolis.

### POLISH GOVERNMENT PUTS PREVIOUS WAR MINISTER IN ASYLUM

Warsaw, May 20.—(UP)—The new Polish government set up this week by Marshal Josef Pilsudski after the successful revolution which he led today interned in an insane asylum, M. Malczewski, war minister of the preceding government.

### STILLS NOW LISTED AS FIRE HAZARDS

St. Paul, May 20.—(UP)—Stills are on the list as fire hazards. An illicit distilling outfit which exploded in an apartment here fired the building and did \$100 damage.

Two other stills and a quantity of mash were seized by police.

Two women, Golda Simon and Fannie Geris, to whom the building is rented, were questioned by authorities.

### SENATE ORDERS INVESTIGATION OF ALL PRIMARIES

MAKES CLEAR DECISION TO WATCH EXPENDITURES OF ALL CANDIDATES

WIDE PROBE FOLLOWS RECENT PRIMARY CAMPAIGN OF PENNSYLVANIA

By PAUL R. MALLON  
(United Press Staff Correspondent)

Washington, May 20.—The senate, by ordering an investigation of all primaries this year, following the Pennsylvania primary, in which Representative Vane, a wet, defeated Senator George Wharton Pepper and Governor Pinchot for the republican senatorial nomination, has made clear its decision to watch closely the expenditures of candidates.

This decision, coming immediately after consecutive defeats for senatorial candidates in Illinois and Pennsylvania, who were endorsed by the Coolidge administration, and with even harder contests coming in Iowa and Oregon, aroused great interest among politicians of all parties.

The Oregon primary comes tomorrow and on June 7, the most important of all, the Iowa primary, in which ex-Senator Brookhart, insurgent, is fighting the Coolidge farm relief program.

Opening of the senate investigation probably next week is expected to divulge important political information which may influence the contests to come.

All forces in Philadelphia admit that more money was spent legitimately in the Vane-Pepper-Pinchot fight than ever before in a primary in history. Outside of the rumors of vote buying and double crossing, which, thus far, have received no substantiation, the candidates were forced to unusual expenditures.

For instance the rent on Pepper's downtown headquarters in Philadelphia was \$4,000 a month. He made 220 speeches, and many halls had to be hired. Thousands of poll workers were employed by each candidate at an average salary of \$10 a day.

Governor Pinchot may be able to furnish investigators with some information. He charged in a statement to the United Press before the vote that he had evidence that "much more money is being spent than in any campaign I have ever seen in this state."

Clouds on the national political horizon first gathered when Frank L. Smith in Illinois defeated Senator McKinley for the republican senatorial nomination on an anti-world court platform. Then came the Vane victory in Pennsylvania over Senator Pepper, who carried Secretary Mellon's endorsement for President Coolidge.

To accentuate these disturbances, Vane is priming himself as a coming wet leader of the republican party over Mellon in the largest republican state in the Union. Vane's victory is expected to give him prestige and patronage upon which he could build up a control similar to that exercised by the late Boies Penrose, whose will was felt in national republican conventions for 20 years before his death.

By ARTHUR SUVERKRUP  
(United Press Staff Correspondent)

Harrisburg, Pa., May 20.—With practically complete returns from the state officially tabulated, Pennsylvania today turned its attention to the investigation of expenditures in the campaign ordered by the United States senate.

Although the nomination of Congressman William S. Vare, Philadelphia, exponent of light wines and beer, over George Wharton Pepper, incumbent, and Gifford Pinchot, for the republican senatorial nomination, has been conceded, late returns have been slowly cutting into the plurality of Edward E. Beidelman, gubernatorial candidate.

With approximately 640 precincts yet to report, Beidelman's lead over John S. Fisher, who was endorsed by the Mellon organization, has dwindled to less than 9,000.

The vote in the gubernatorial contest, with 646 districts yet to report was: Beidelman 602,087, Fisher 592,819.

Political leaders here today refused to comment on the investigation ordered by the senate.

During the campaign charges that huge sums of money were being expended were heard on every side.

### NEW YORK IN REFERENDUM ON PROHIBITION

Albany, N. Y., May 20.—(UP)—New York, with the largest population of the 48 states, today was ready for an official referendum on prohibition. The voters will ballot at the November elections on modifying the Volstead act to permit the manufacture and sale of light wines and beer, as a result of Governor Al Smith's approval late yesterday of the Karle-Phelps referendum bill, which previously had passed the assembly and senate.

The referendum will not change the law in any respect, serving only as an expression of opinion by the voters.

### LIGHT RAINS, CALM AIR CHECKS FIRES

EFFORTS OF 1,000 FOREST FIGHTERS IN NORTH WOODS REWARDED

SITUATION WELL IN HAND IF WIND DOES NOT ARISE

Duluth, May 20.—(UP)—Under the influence of a calm, an increase in moisture and light rains, coupled with the efforts of 1,000 men, forest fires in the north woods of Minnesota generally were well in hand today with but one disturbing factor, the possibility that winds may fan the flames anew.

Moderately light winds which blew during the night did not change the optimistic situation. They blew the flames back over the burned areas and in fact assisted fire fighters in their work.

Efforts of rangers are directed today at keeping the Cramer fire within bounds on a five mile front along the north shore of Lake Superior. Besides destroying valuable hardwood, the fire is threatening to invade the Superior National forest, but conditions are favorable to checking it.

New fires that have flared up were of no consequence and some burned out before it was necessary to send men to combat them.

Disabled war veterans with homes at Veteransville in the Moose Lake region apparently were successful in their desperate battle to keep the flames from invading the town. Though embers dropped in the town the fire was held back and conquered.

### CHINESE BANDITS CAPTURE U. S. ARMY OFFICER

CAPTAIN T. J. BETTS SERVING AS A LANGUAGE OFFICER

AT HEADQUARTERS OF U. S. MILITARY ATTACHE AT PEKING

Peking, May 20.—(UP)—Yunnan province bandits have captured Captain T. J. Betts, United States coast artillery officer from Maryland. Betts has been serving as language officer at the headquarters of the United States military attache here.

Betts' capture occurred on the 17th at Laitoupo, 60 miles south of Tung Chang, where the bandits have recently been most active. The American consul at Yuan Fu notified local officials and the Peking legation, which is taking up the matter with the foreign office.

Betts was making a tour from the south toward the Yang Tze river and intended to continue to Peking.

His wife and his mother-in-law are in the city.

Chief among those making the charges was Governor Gifford Pinchot. The governor is at his Milford home, but it is assumed that he will have some statement to make when he returns to the capital.

While no list of witnesses for the investigation has been announced, it is assumed here that Pinchot will be among those called to testify.

### DAUGHERTY IN A PLEA OF NOT GUILTY

CHARGED WITH CONSPIRACY TO DEPRIVE GOVERNMENT OF ITS RIGHTS

ARRAIGNED BEFORE FEDERAL JUDGE HENRY GODDARD, NEW YORK

New York, May 20.—(UP)—Harry M. Daugherty, attorney general in the cabinet of President Harding and later under President Coolidge, today pleaded not guilty to charges of conspiracy to deprive the government of its rights, when he was arraigned before Federal Judge Henry Goddard here today.

Daugherty was indicted two weeks ago with the late John T. King and Thomas W. Miller, former alien property custodians.

Judge Goddard set Daugherty's bail at \$5,000. Judge Goddard notified the attorneys that because he and Daugherty both had received political appointments from the late President Harding, he would not entertain any motions in the case and that it must pass to another court. Accordingly, no date was set for trial. It will be assigned later to another department of the district court.

Robert S. Johnston, attorney for Thomas W. Miller, moved dismissal of a similar indictment returned seven months ago against Miller, but the motion was opposed by United States District Attorney E. R. Buckner and was denied by Judge Goddard, who specified it could be renewed later. Miller, who recently was injured in a fall at his farm, was unable to appear and his arraignment will be held later.

Daugherty's case was called preceding that of Earl Carroll, theatrical producer, charged with perjury in connection with the party he gave here at which Joyce Hawley was alleged to have bathed in a tub of champagne.

The court room accordingly was crowded when Daugherty was called to the bar. The crowd did not seem to realize, however, that a former cabinet officer of the United States was a defendant.

Daugherty in answer to his name stepped inside the rail and the attorneys ranged themselves on each side. Daugherty was represented by Max D. Steuer of New York. All remained standing and the proceedings were conducted in voices so low that they hardly could be heard.

The bond was furnished immediately and Daugherty left the court with his lawyers.

### PLEADS 'GOOD WILL' LOSS DEDUCTED FROM INCOME TAX

St. Paul, May 20.—(UP)—"Good will" which it declares was destroyed by prohibition should be deducted from its income tax assessment, the Red Wing (Minn.) Maltling company contends in the first case of its kind to come before the government, hearings on which started today.

The maltling company is suing the government for a refund of taxes paid on its 1918 income, asserting "good will" should not have been included in its taxable property.

"The company had no good will left after prohibition," its attorneys said today.

### L. W. MARTIN OPENS CAMPAIGN

Minneapolis, May 20.—(UP)—The campaign of L. W. Martin, candidate for the farmer-labor nomination for lieutenant governor, was opened today. Martin spoke at Hampton, Farmington and Cannon Falls.

Martin is unopposed for the nomination and is devoting his campaign to urging the nomination of Tom Davis of Minneapolis for governor on the farmer-labor ticket.

### ALLEGED STOCK BROKER ARRESTED

### 27 YEAR OLD CURFEW LAW RESURRECTED

Rochester, Minn., May 20.—(UP)—A 27 year old curfew law, which provides a fine or imprisonment for children under 16 who are unaccompanied by parents or guardian on the streets after 9 p. m., is being invoked here.

Chief of Police Thomas Slattery said today he intended to enforce the ordinance but indicated that beyond taking children who disobeyed it into custody and reprimanding them, the city would be lenient and overlook the \$10 fine or 10 day prison term provisions. "Too many children are on the streets after the curfew hour," Slattery said. "Many of them go to movies late in the evening and reappear on the streets not long before midnight. Either they go to early movies or they do not go at all."

### SEEK TO TAKE AWAY FUNCTION OF VET. BUREAU

VETERANS MAINTAIN THE CIVIL COURTS SHOULD BE ARBITERS

SHOULD HAVE FINAL VOICE IN DISABILITY RATINGS

St. Paul, May 20.—(UP)—The most important function of the United States Veterans' Bureau will be taken away if the United States court of appeals here upholds disabled former service men in their contention that civil courts are the final arbiters of disability ratings.

The Veterans' Bureau argues that it is the final judge on ratings by authority of congress and that the courts have no right to intervene. The question was argued Wednesday and is under advisement.

Disabled veterans in two suits appealed from lower courts contend that at the time they allowed their government insurance to lapse, they should have been rated as partially disabled. They demand that their insurance policies should be reinstated now in the amount in which they believe compensation should have been allowed.

### BELATED STORY PRINTED BY THE LONDON EXPRESS

300 HOUSES DESTROYED BY THE FRENCH ARTILLERY

TROUBLE BEGAN WHEN REBEL DRUSE TRIBESMEN ATTACKED FRENCH POST

London, May 20.—(UP)—The London Daily Express published a dispatch from a Damascus correspondent who quoted "semi-official" sources in saying that 500 civilians and 100 rebels were killed and 300 houses destroyed in a French bombardment of the city on May 7. The Daily Express dispatch was dated May 9, which was taken as indicating it may have been mailed to avoid censorship.

The Paris office of the United Press reported that a similar story, published on May 7 and May 8, was officially denied by the French foreign office.

The report, as published by the daily express, said that women and children were among those killed in the bombardment and added that "the French casualties were approximately 20 killed and 30 wounded."

The dispatch said the trouble began on the night of May 6 when rebel Druse tribesmen attacked a French army post at Bobmoualla and killed 8 soldiers. It said 200 rebels then took refuge in the Midanor section of the city. On May 7, the dispatch continued, 3,000 French troops surrounded the quarters and demanded that citizens of the quarter surrender the rebels under penalty of bombardment, giving the citizens 30 minutes in which to do so or leave the quarter.

The dispatch added that the citizens said they could not force the rebels to surrender.

"Twelve three-inch field guns, four 4.8 inch howitzers and 12 airplanes were used in the bombardment," the dispatch continued. "Shelling began at noon and continued unceasingly for 15 hours. Fires immediately broke out in various places."

### BARGE SERVICE ON UPPER RIVER

WILL BECOME A PROBABILITY SOON ON THE MISSISSIPPI

St. Paul, May 20.—(UP)—Barge service on the upper Mississippi this summer became a probability following word from Washington that a government corporation is preparing to take over and operate the Brodie Barge line between St. Paul, Minneapolis and St. Louis.

J. S. Brodie of St. Paul, head of the barge company, who has been in Washington, is to lay the government's proposition before his board of directors with the possibility of its acceptance considered favorable.

Three tow barges, two power barges and three tug-boats comprise the Brodie property. One round trip a month has been made by the Brodie line.

### HAD NO MONEY; ATE AND TENDERED WATCH FOR PAYMENT

St. Paul, May 20.—(UP)—Three young men who rode freight trains from their home at Sioux Falls to reach St. Paul were hungry but had no money.

They didn't tell a cafeteria that, but ate their fill and then offered a watch in payment. The three, Ed Carey, 19; Howard Wilson, 18, and Erwin Snyder, 18, were arrested and arraigned in police court today. Sentence was deferred while communication with their families was attempted.

## THE KNOT HOLE

No. 23 THURSDAY, MAY 20, 1926 Vol. 1

"Straw Hat  
season opens  
soon," says John  
Bye. We saw one  
yesterday.

Remember way  
back when moth-  
er and daughter  
both went bare-  
foot in summer?  
That was be-  
fore it was fash-  
ionable to have  
corns or cars.

In these days  
half of the world  
is on the wheels  
and the other half  
is fixing up the  
spare tire.

But what's the  
use of having the  
right of way if  
the other fellow  
don't know it.

It certainly is  
amusing to hear

an auto horn give  
warning when  
the crossing is  
blocked on North  
Sixth. That must  
make the N. P.  
sit up and take  
notice.

And while we're  
all a pining  
now  
An' prayin' hard  
for rain.

Remember that  
the bloomin'  
weeds

Will grow and  
thrive again,  
Much faster than  
our garden  
truck,

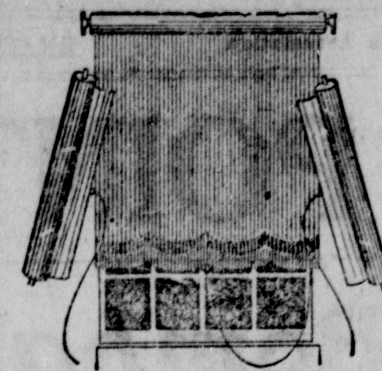

Our flowers,  
lawns and peas.  
"Gad Zooks" but  
we'll have blis-

Upon our hands  
and knees.

The city man  
who tries to raise  
a garden doesn't  
wonder that  
farmers some-  
times get discour-  
aged.

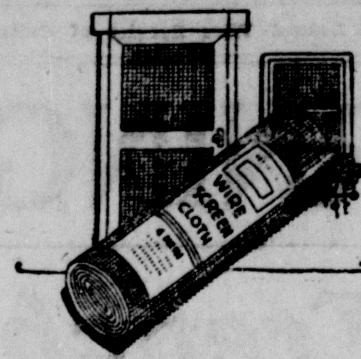

A little rose  
trellis, a lawn  
seat, a fancy  
grape arbor—all  
those little touch-  
es add wonder-  
fully to the gen-  
eral appearance  
of your home.

Saturday Afternoon  
Holiday

For First National Bank Em-  
ployees During June, July  
and August

The First National Bank is again preparing  
to observe the Saturday afternoon holiday during  
June, July and August made possible in 1924  
when the Directors amended the By Laws by mak-  
ing the business hours for Saturday from 9:00  
o'clock A. M. to 1:00 o'clock P. M. during the  
months of June, July and August.

This enables the employees to enjoy a few  
more hours of out door recreation during the short  
summer season which better fits them for the long  
winter months to follow.

This plan has worked very successfully dur-  
ing the past two seasons and it is hoped that the  
patrons of the bank will continue their approval  
of the change of office hours on Saturday, made  
for the benefit of the employees, and arrange their  
business in such a manner so as to avoid any in-  
convenience to themselves.

### Experience Won "First Year" Role for Miss Perry

Kathryn Perry was chosen for her part in the Fox Films production of the John Golden play, "The First Year," which comes to the Lyceum theatre tonight and Friday, not only for her loveliness, but because she has had so much experience as the young American wife.

Miss Perry was busy playing Helen in the comedies of married life based on the stories by Mabel Herbert Uner. "The Married Life of Helen and Warren." She had been selected for this role from among a large number of possibilities, and with each picture had created a character more real and more life-like.

So when it came time to select the cast for the John Golden play Miss Perry was the most logical possibility because of her experience.

### NORTH LONG LAKE NEWS

A large number of the neighbors and friends of Mrs. Andrew Olson and Mrs. Peter Wicklund gathered at the home of the latter last Wednesday evening to bid these two ladies farewell before they should leave upon their trip to Sweden.

A very enjoyable evening was spent in visiting and playing games. The ladies were each presented with an appropriate gift by their friends.

Mrs. Olson and Mrs. Wicklund left early Monday morning for their trip abroad. Their friends all join in wishing them a safe journey and a pleasant time. We all look forward to their return when we hope to hear all about it.

The get-together Friday night was the best ever! R. B. Thompson was the chairman for the evening's entertainment and we made no mistake when we anticipated a "regular-fellar's" program for it proved to be just that.

William Thompson in the regalia of "Abe Martin" played some old

time music on his "fiddle" that met with hearty applause.

Minnesota was lauded in song and verse. Readings and songs by several Long Lake young folks as well as some by friends from Brainerd were enjoyed by all.

Walter F. Wieland, our county attorney, gave a very much worth while talk which was greatly enjoyed.

The Sons of the Soil with straw hats on their heads and bandanas about their throats appeared ready to do anything and gave a rousing yell which was answered by the Daughters of the Soil. Then the audience picked it up with ready enthusiasm: "Ching-a-ling-a-ling, Ching-a-ling-a-lye

Long Lake, Long Lake  
Rye Rye Rye!"

The Sons passed the lunch with no delays and as usual there was an abundance.

The Daughters of the Soil were entertained on Saturday by their president, Miss May Lundeen, at an out of doors picnic. Miss Lundeen spared no pains to give the girls a good time and they all went home tired and happy.

The club held a business meeting and election of officers on Saturday also. The following officers were elected to serve for the next three months:

President—Florence Olson.  
Vice President—Bernice Ackerson.  
Secretary—Maude Thompson.  
Treasurer—Hazel Paulson.

The club decided to hold an apron and food sale the ninth of July in order to raise funds enough for their camping trip.

The girls will go camping the second week of August from the ninth to the 15th. They will occupy the Boy Scout Camp at Clearwater lake.

Mr. and Mrs. William Lewis, their son Fay, and daughters, Sarah, Fern, and Onalie spent Sunday afternoon at Hughey's.

Mr. and Mrs. Ole Olson and family had dinner with the Seavert Paulson family Sunday.

## Remove Your Goitre

Caused From Bladder Weakness. Nature's Way of Telling You of "Danger Ahead!" J. H. Hanford, 7155 Yale Ave., Chicago, Ill., says, "For two years I have been troubled with gravel. Many times it would cause me to get up eight to twelve times at night, and it was very painful. Lithiated Buchu cleaned me up in one week. I will be glad to tell or write my experience." Lithiated Buchu is not a patent medicine as the formula is on the label. It cleanses the bladder as epson salts do the bowels, driving out abnormal deposits, neutralizing excess acid, thereby relieving irritation which causes disturbed sleep. It is not a cheap medicine. ## "HOW DO I KNOW THERE IS A GOD?"

It is good to get the angle of other people on such an important question as "How Do I Know There is a God?" Theologians express their beliefs, people they instruct express their faith. It is well to hear from one who has made a study of nature and is able to express his thoughts in beautiful language.

Jack Miner is a Canadian naturalist. He is kind to birds and animals and near Kingsville, Ontario, has a wild bird farm. So well has this functioned that the Canadian government recently granted him 1,500 acres for further use. Last year Mr. Miner fed the wild birds making a refuge at his farm close to 3,500 bushels of corn.

Utilizing his knowledge of feathered creatures, he pointed to his experiences as definite proofs of immortality and the existence of God. As quoted from the address he delivered, Mr. Miner said in part:

"I have not learned from books, but from life. I have seen the rabbit change the color of his fur from brown to white just before the fall of snow. Invariably this happens within three days of snowfall, in my experience, and I do not think it is a mere circumstance. After the snow is on the ground the rabbits are invisible, protected by God's forethought.

"I have watched the moose carrying their great antlers during the mating season, when they travel alone and in pairs and need weapons to fight off their enemies. But when the winter, hunger season, comes on and wolf packs and other hunting creatures of the wild come after them, they lose their antlers. Why? Because the odds against them are so great they must go in herds into the deep brush. The large antlered males could not do this unless their antlers fell away. So God cares for them.

"The wild geese are clannish, keeping to their own families through many generations. I have tested them by taking the eggs from a nest and hatching them artificially, then turning the goslings out among others where the parents are. They never fail to identify their own. This is not blind chance."

Animals are intelligent in a way, as maintained by Miner, and not guided solely by instinct. The spirit of kindness makes friends with animals and birds.

## CALLS FOR GENERAL OBSERVANCE OF MEMORIAL DAY

GOVERNOR THEODORE CHRISTIANSON, in his proclamation of Memorial Day as a day for public devotion to soldier dead of the republic, calls for a general observance of the purposes of the day.

"For more than three score years," the proclamation reads, "there has been designated each year a day sacred to the soldier dead of the republic. Minnesota was the first state to offer aid to the union in the time of the nation's greatest crisis, and in other and later wars she has never shirked the heat of battle. It is therefore meet that in Minnesota, the attention of the people should be called especially to the sacred duties of Memorial Day.

"Now, therefore, I, Theodore Christianson, governor of the state of Minnesota, do hereby proclaim that inasmuch as May 30, 1926, occurs on the Sabbath day, Monday, May 31, may in lieu thereof be observed by the people of this commonwealth with proper exercises in honor of the sacred dead, and is hereby designated Memorial day.

"The relentless hand of time has taken increasing toll of our soldiers. One by one they have joined the innumerable host of those who have marched to their final camp. Thus our sad privilege of tendering respect and reverence is even greater than before. Let us, on this occasion, join hands with those men in blue and drab and khaki who still are with us and see that the graves of those who are gone beyond the sunset are fittingly beautified with flowers and flags, emblematic of the promise that in the nation's memory, they shall never die.

"Let hospitals and homes where afflicted soldiers are housed be visited, that the living may enjoy that honor and appreciation which is their due.

"In public exercises to be held throughout the state, let recognition be accorded the accomplishments of our patriots in all the nation's wars. Let the day be devoted to the memory of those to whom no sacrifice was too great in their country's time of supreme need."

## FAME OF BRAINERD LAKE REGION PENETRATED TURKEY

MRS. EUGENIA DAY of Constantinople, Turkey, has rented a cottage from George Hogue on Big Pelican lake near Breezy Point Lodge. Her husband is in American consular employ in Turkey and they have spent the larger part of their time in Turkey.

Things are different now. Literature from the 10,000 lakes of Minnesota and Breezy Point has trickled into Turkey so that it stirred the Days to come to Brainerd.

The cottage was rented the Days by John H. Krekelberg of Brainerd. Mr. Day will follow his wife to Brainerd shortly, just as soon as the government gives him a long delayed vacation.

The recall election is in full swing in Brainerd, but with no candidates as yet against the present mayor. The petition asking for the recall contained 1,200 names, 870 of which were eligible. The other 330 names were scratched from the petition by city officials.—Little Falls Daily Transcript.

Two Englishmen went to a Canadian gold rush packing their typewriters. This is better than the corps of Englishmen who entered the Yukon region by the 1,000 mile overland route via Winnipeg and Edmonton and carried their bath tubs.

JOHN L. MORRISON, publisher of the Duluth Ripsaw, died suddenly yesterday at Superior, Wis. Morrison had a peculiar idea of journalism. His Ripsaw certainly lived up to its name. It was particularly in evidence when politics simmered.

"LET'S have a stay at home and get acquainted with the family week," says the Winnebago City Enterprise. "Which is pretty good," says Jim Morrison, "if the family will also observe it."

# American Legion Corner

The American Legion held their regular meeting Monday evening at their club rooms in the Jewel block. A good crowd was present and some of the members put on a little bit of entertainment that was a treat to all.

Over 150 is the roll call of the post at this time and there are many others planning on joining in the near future, which will make the list of present members look small.

The drum and bugle corp will practice at 7 o'clock Monday evening and all members are asked to be there at that time. This is the last practice before Memorial day. The boys will soon blossom out in uniform dress. Other members are joining and there is much interest in this activity. It is expected that they will travel to Atkin 100 per cent next month during the district convention of the American Legion.

Your support is asked for and will be greatly appreciated.

Yours for business,

"Arch Fitters" are style shoes, made in "Special Measurements," and combinations of sizes.

Bunions or enlarged joints require an extra size or two at the ball only. We have any number of "Arch Fitters" made just that way.

## All Closed Car Comforts — Masterful Performance — Low Cost

Note Well These Claims—They Are Supported by 800,000 Owners

Lasting pride of ownership comes from masterful performance, ease of operation and maintenance, from reliability and economy.

These qualities cannot be revealed by any other test than actual performance over long periods of time and in the hands of every type of user.

Hudson holds first advantage because of its patented Super-Six—the world's most famous motor. More than 800,000 have been built by Hudson under its exclusive principle. For 11 years it has been outstanding because of distinctive smoothness, wide flexibility, power, speed, and reliability.

Hudson is easy to steer. Its power range is so great that gear shifting is lessened, and

the riding action is so well arranged that long hours at the wheel are not tiring.

Economy is found in low operating and maintenance cost.

These are the qualities that make genuine satisfaction. Upon such a chassis is mounted the Coach. It gives all closed car comforts. It is sturdy, beautiful in line, and complete in every practical detail. Its sale has exceeded that of any closed car priced above \$1,000. That production has led to greater economy and much lower prices. It has permitted many improvements in chassis and body.

So today's Hudson Coach is not only the best ever built. It also is priced lower than ever before.

## STRIKING BRITISH COAL MINERS REJECT PROPOSALS

SETTLEMENT OF STRIKE AP-  
PEARS DIFFICULT FOR  
SOME TIME

DELEGATES MET AT A HALL IN  
LONDON, 150 IN AT-  
TENDANCE

London, May 19.—(UP)—Dele-  
gates of the striking British coal  
miners today rejected the govern-  
ment's proposals for settlement of  
the strike.

The miners' delegates met at  
Kingsway Hall, 150 attending the  
meeting. They heard the reports on  
the government's proposals and then  
rejected them.

The conference passed resolutions  
saying the miners were unable to  
accept any prospective reduction of  
wages and would not agree to the  
appointment of a neutral chairman  
for the wage boards provided in the  
government's proposals, who would  
be able to enforce minimum wages  
in each district.

The government's plan, which was  
formulated and submitted by Premier  
Baldwin, followed generally the find-  
ings of the royal coal commission,  
and called for wage reductions which  
miners said would amount to an  
average of 10 per cent. It set up  
machinery for enforcement of the  
settlement.

## GLAD-HANDING THE TOURISTS

Comprehensive Plan for Reception of  
Tourists and Visitors Spon-  
sored by Lions

COMMITTEE NAMED

Official Representative of Club to be  
on Duty on Streets Days  
and Evenings

A comprehensive plan for "glad-  
handing" the tourists and other visi-  
tors in our city was started by the  
Lions club at their meeting last eve-  
ning. A committee was appointed to  
work out the details which are  
expected to include an official repre-  
sentative of the club on duty on the  
streets during the day and evening  
for the entire tourist season. The  
Lions club has had this matter un-  
der consideration for some little time  
having recognized the need of some  
such contact with the strangers  
within our gates who mean much to  
the community in a business way if  
nothing more.

Lion Harry Fullerton, city attor-  
ney, addressed the club on the sub-  
ject finances and with the aid of  
charts surprised his audience with  
figures showing a much larger phys-  
ical valuation of city property than  
most tax payers suspect.

Seven members of the Brainerd  
den drove to Aitkin and attended the  
noonday meeting of that club Wed-  
nesday. The Brainerd organization  
sponsored the Aitkin club.

Guests at Wednesday's meeting  
here included Col. Rogers of San  
Antonio, Texas, Lion Henry Fly,  
tailwister of the Aitkin club and  
proprietor of the Foley hotel in that  
city and Don Freeman of St. Cloud.

In the Kitchen  
with 6 Famous Cooks

FOUR DELICIOUS CAKES  
FROM FOUR CORNERS  
OF THE UNITED  
STATES

(Ed. Note: This is one of a special  
series of articles contributed by 6 Famous  
Cooks. Their recipes are "different." Cut  
them out and paste them in your cook  
book.)

Who ever heard of a family  
without at least one "cake-  
eating" member? It's pretty  
certain that such a household  
doesn't exist. Usually there  
are several folks clamor-  
ing for cake and more cake.  
It's the one food which sel-  
dom has "left-overs."

It's also one  
of the foods which can be  
made just as rich or just as  
plain as the cook wants to  
make it.

### For the Chocolate Fans

Rich Devil's Food Cake with Lap-  
lander frosting is a cake which  
appeals especially to those who like  
chocolate. Miss Margaret Allen Hall,  
nutrition expert at the Battle Creek  
College of Home Economics, gives  
this as her favorite recipe:

1/2 cup butter  
2 cups sugar  
1 cup milk  
4 eggs  
2 cups flour  
4 teaspoons baking powder  
1 cup chopped nuts  
2 squares chocolate.

Cream the butter with one cup of  
sugar. Beat egg yolks, add the  
other cup sugar, beat until creamy.  
Combine the two mixtures. Sift  
baking powder with flour and add  
to creamed mixture alternately with  
the milk. Add melted chocolate and  
nuts, and fold in egg whites. Bake  
in deep pan, or in layers. Cover with  
Laplander frosting.

### Laplander Frosting

1 egg  
1 cup sugar  
2 squares chocolate cut fine  
2 tablespoons milk  
2 tablespoons butter  
1/2 teaspoon vanilla

Beat the egg, add milk, butter,  
sugar and chocolate. Cook slowly  
over flame, stirring constantly. When  
mixture comes to a boil, remove  
from fire, add vanilla and beat until  
thick enough to spread.

### For the Children

Mrs. Sarah Tyson Rorer, the Phila-  
delphia cooking expert, has an ex-  
cellent recipe for a soft molasses  
cake. "Give the children as much  
as they want," says Mrs. Rorer. "It's  
wholesome and nourishing."

Here is Mrs. Rorer's recipe: Dis-  
solve one teaspoonful of baking  
soda in two tablespoonfuls of warm  
water. Add one cupful Now Or-  
leans molasses, a quarter of a pound  
of melted butter, one cupful of boil-  
ing water, and one tablespoonful of  
ground ginger. Add three cupfuls  
of pastry flour and beat until  
smooth. Bake in a shallow pan on  
upper rack in a medium oven for  
about 30 minutes.

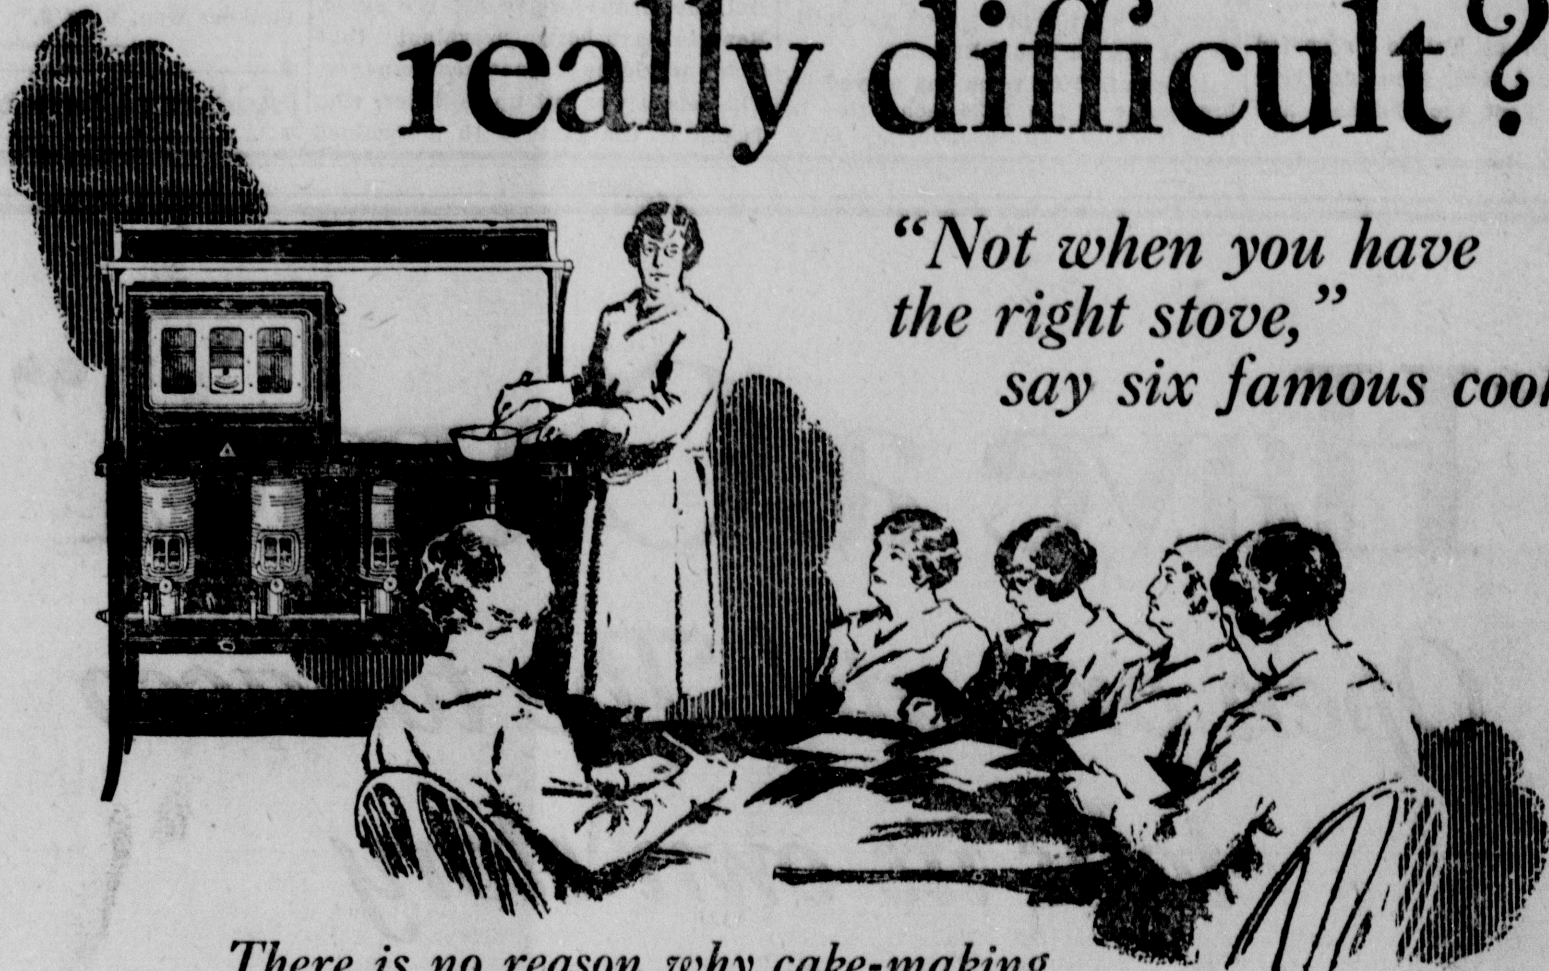

This may be served with whipped  
cream as a delicious dessert.

### Use Bananas, Too

Bananas flavor this delicious cake  
recommended by Mrs. Kate Brown  
Vaughn, Los Angeles cooking ex-  
pert. The ingredients are:

1 1/2 cups sugar  
1/2 cup shortening  
2 eggs  
1 cup mashed bananas  
4 tablespoons sour milk  
1 teaspoon soda  
1 1/2 cups flour  
1 teaspoon baking powder  
1/2 teaspoon salt  
1/2 cup chopped walnut meats

## Is cake baking really difficult?

"Not when you have  
the right stove,"  
say six famous cooks.

There is no reason why cake-making  
should be less successful than any  
other cooking operation—when the  
cook can depend upon her stove.

THAT is the statement of six  
famous cooks who have just com-  
pleted a practical cooking test of the  
Perfection Stove. All six agreed in  
praising the Perfection highly for its  
baking ability, as well as for its  
general performance.

"Speaking of cakes, half the making  
is in the baking," said Miss Rosa  
Michaelis, New Orleans, domestic  
science specialist.

### Delicate Angel Food

"An even temperature must be main-  
tained while an angel food and other  
cakes are baking," added Miss Mar-  
garet A. Hall, nutrition expert of the  
Battle Creek College of Home Econo-  
mics. "When I baked cakes in the  
Perfection oven I used a standard,  
portable oven thermometer as a check.  
The flame did not creep or crawl. You  
can depend on the Perfection flame to  
remain as you set it."

"My orange cakes and devil's foods  
were delicious," commented Mrs. Kate  
B. Vaughn, Los Angeles, household  
economics director. "The air circula-  
tion in the Perfection oven seems  
perfect. All excess moisture was  
carried away."

"It's the 'live heat' of the Perfection  
Oven which brings such good re-  
sults," said Mrs. Rorer, famous Phila-  
delphia cook.

"The Perfection oven is so roomy that  
there is room for several cakes at a  
time," said Mrs. Belle DeGraf, San  
Francisco. "And, through the glass  
door of the oven you can see just how  
they are baking. No need to open the  
door and lose any heat."

Miss Lucy G. Allen, of the Boston  
School of Cookery, commented on the  
visible oil supply. "You can see," she  
remarked, "whether you have enough  
for your cooking. If not, it's easy to  
refill the Perfection reservoir without  
soiling your hands."

### High Praise

These are just a few of Perfection's  
good baking points which the six ex-  
pert cooks praised highly. You will  
find many others when you bake on a  
Perfection. It's the stove which proves  
cake-baking is not difficult.

# BRAINERD HIGH ATHLETES REPRESENTED

## LITTLE FALLS

### HOSTS TO TRACK TEAMS SATURDAY

#### BRAINERD HIGH SCHOOL ENTERED IN DISTRICT MEET

#### FIRST MEET OF KIND IN THIS DISTRICT. TALENT UNCERTAIN

Little Falls high school will act as host to the track teams of several high schools in this district on Saturday afternoon, when track and field men from Crosby-Ironton, Aitkin, Staples, Wadena, Brainerd and Little Falls high schools will come for the first track meet held in the district.

Brainerd will be represented by a fair collection of aspirants. As this is the first year of this work, the talent here and in the other schools is somewhat uncertain.

Verne McNamara seems to be Brainerd's best bet in the dashes, and he with Downie and Marshall will undoubtedly carry the local colors in the 100 and 220. Barnes may also see action in the 220. Johnstone, Barnes, Trask and Storm are the ones from whom will be picked Brainerd's entrants in the 440 and half mile.

The half mile relay team will probably be composed of Marshall, Johnstone, Downie and McNamara. Other Brainerd entrants are likely to be these: broad jump—Marshall, Finne and Tribur; high jump—Marshall, Downie; pole vault—Ray Welliver, Charles Welliver and Tribur; discus—Gile, Tribur, Finne; javelin—Tribur, Ray Welliver; shot put—Finne, Tribur, Ray Welliver, Downie may enter the low hurdles.

#### Watching the Scoreboard

Yesterday's Hero—Pete Donohue, Cincinnati pitcher, who let down the Robins with two hits and helped the Reds to a firmer grip on first place as they won 5 to 1.

The Yankees won their eighth straight, beating the Browns, 6 to 2, the Yankees making all their runs on homers, two by Ruth and one each by Combs and Meusel.

The Senators were held to six hits by Johns, Detroit hurler, and were shut out 6 to 0.

A fourth inning rally that netted seven runs enabled the White Sox to beat Boston, 9 to 7.

The Giants' early two run lead was wasted and the Pirates won the first game of the series, 6 to 3.

The Braves had one big inning

against Chicago, making four runs in the fourth and the Cubs were beaten 5 to 2.

Cleveland went back into second place by spirited rallies in the last two innings, defeating the Athletics 6 to 5.

Hornsby sustained an injury to his foot, which may keep him out of the lineup for two or three days in a game which the Phillies won from the Cardinals, 6 to 2.

Taking the lead at the start Milwaukee defeated Minneapolis 12 to 9. Both teams made 13 hits, but the Brewers bunched theirs in two innings.

St. Paul lost to the Blues in a long distance hitting contest, 4 to 2. Nine extra base hits were registered out of 18 safeties chalked up by the two teams.

Wet grounds at Toledo prevented the Indians and Hens game and rain at Columbus kept the Colonels and Senators idle.

## EXPERTS ERR ON SUMMING UP BROWNS

### PRE-SEASON POSSIBILITIES ARE NOW ENTIRELY BLASTED

#### PLAY IN NEW YORK AS THOUGH THEY HAD RECEIVED BAD NEWS FROM HOME

By PAUL W. WHITE  
New York, May 20.—Seldom have experts erred so badly as they did in summing up the pre-season possibilities of the St. Louis Browns.

George Sisler's team has played its first game of the 1926 schedule in New York and the Missourians play-

ed as if they had just received bad news from home. Their brand of baseball was as dispirited as the writer has seen this year, which is not surprising, since the Browns have won but eight of their 32 games and have a two-game lead on the race for the cellar.

At the training camps it was held that the St. Louis team probably would be a contender, and was certain of a first division berth. It seemed that the Browns had improved their battery department by the acquisition of Wally Schang, ex-Yankee and the trading of Joe Bush to Washington for Tom Zachary and Winn Ballou.

Mellilo, the Italian second baseman, was declared a find and a prosperous season appeared inevitable. But the Browns have hit the skids. Reports have been prevalent that Sisler would be replaced as manager. The report was put up to Sisler, who is out of the game with a sprained

angle, sustained last week in Washington.

"So far as I know, there is no ground for the rumor," he said. "Such talk is inevitable when a team is not playing up to its form. I am certain that the Browns will not remain long in the cellar."

"The team has been handicapped by injuries and batting slumps," Sisler admitted that the strength of the American league is largely in the east. He sees Washington, Philadelphia and New York scrapping it out all summer.

"If the Babe keeps up that sort of thing, the Yankees will not be beaten," he said, as Ruth knocked his second home of the day, which the Yankees won, 6 to 2.

Every man likes to save his old straw hat.

It's a sort of ceremony with men to go up to the attic—fish it out—try it on—wonder how he ever wore it—and then hustle to the John M. Bye Clothing Co.'s store for a new hat.

Personally, we never save a Straw—but our customers do even though they never wear them.

# "Have a Camel"

## Open one up! The tobacco tells its own story

CAMELS are made of the choicest Turkish and Domestic tobaccos grown. To prove what we say about Camel's tobacco quality, make this test:

Take a Camel and any other cigarette. Tear off the papers and place the tobaccos from the two cigarettes in separate piles. Now shake them up and examine the tobaccos. Your own eyes will quickly show you the difference, how the Camel tobacco is longer and of a riper color. Then gather up the two piles separately—and smell them.

You will at once notice the rich, fragrant aroma of Camel tobaccos not found in the other.

This marked difference is even more apparent when you "taste the smoke." It is solely because of the quality of the tobaccos and the skill of the blending that Camels never tire the taste, never leave a cigaretty after-taste.

Camels are so good that we know you will like them. Give them every test known and you will find Camels the highest quality cigarette made, regardless of price. *Have a Camel!*

Grow Hair this NEW Way!

## Results Now Guaranteed

Scientific Study of Hair Troubles Results in an entirely New Method

Inefficient tonics can now be discarded. An entirely new method of scalp treatment has been perfected. It is totally unlike anything you have seen or heard of before. Its simplicity will delight you. Its results amaze you. But one application a week is needed for many scalp troubles. It leaves no after-odor—no greasy effect.

### Guarantee in Writing

Many extravagant claims have been made before. Often the public has suffered. But note our fair offer. This method must stop Falling Hair. Must destroy Dandruff. Must grow hair—or money back. There are no strings to this guarantee. It is in writing. It appears in every package. You are fully protected.

### Seborrhea Causes Baldness

Well may you wonder at such a broad guarantee. But this treatment is not a mere tonic. We have studied hair troubles scientifically—and discovered some amazing facts. We found that the hair grows from a bulb—not from a root. These hair bulbs seldom die from natural causes. They don't come out with the hair. But frequently they become weakened. Then hair troubles commence. Seborrhea is most often the cause. Infection sets in. The hair now becomes dull, lifeless—starts falling. Eventually baldness takes place.

But here is the marvelous thing. Remove infection—stimulate dormant hair bulbs to renewed activity and the hair grows again.

### New Method Combats It

Now we have found a way of combating Seborrhea. A new method for stimulating hair growth. This treatment is called STIM. The principle is scientifically correct. It is not just a tonic. Hence its amazing success. It must stop Falling Hair. It must destroy Dandruff. In writing we guarantee that it must grow hair—or money back.

NOW NEW METHOD Combats Seborrhea—and grows hair

In Seborrhea Oil glands become infected. Germ-laden substances close the hair follicle. Hair becomes dull, lifeless and falls prematurely.

New hair growth is now stimulated. The hair bulb finally becomes healthy—but it rarely dies in the early stage.

Remove infection. Open up clogged follicle. Stimulate dormant bulbs to renewed activity and hair grows again.

### Results Are Guaranteed

No matter what your condition—or how many "tonics" you have used without avail—you now owe it to yourself to give this scientific method a fair trial. It must stop Falling Hair. Must destroy Dandruff. Must Stimulate Hair Growth—or it costs you nothing. You are the sole judge. In every package is our written guarantee that results must satisfy you or money back. Could we possibly make you a fairer offer? We urge you to accept it today.

### HERE IS PROOF

"I consulted Dr. — of Johnson, Pa., my home town. His recommendation for this condition was 'STIM' — I had occasion to have my hair trimmed up a little last week and the barber noticed a lot of new hair coming out along the front and sides where I was principally troubled." E.C.H., State College, Pa.

"I have been using STIM and find it the best thing for baldness and have about lost my baldness covered." E. S., Birmingham, Ala.

## PARENT-TEACHERS JOINT MEETING

Various Clubs of City Enjoy Fine Program Tuesday Night

### ACHIEVEMENTS SET OUT

Hon. Edward P. Scallion of Crosby Gave Excellent Address

The joint parent-teachers meeting Tuesday night had a very fine program but the usual rather small attendance.

The high school orchestra gave several very lively and well played selections as the opening number. After that several schools read their reports of the year's work.

The Lincoln school, with money from refreshments and a carnival, had invested in playground equipment to the amount of two hundred dollars and were furnishing milk for underweight children. They had sent Mrs. Patterson to the state convention, had had a Dad's night where the fathers furnished the program and the refreshments, and had a successful year in general. Mrs. Paine, the retiring president, was thanked for her enthusiastic and efficient work during her term of office by Mrs. Hohman, who read the report.

The Riverside school had enlarged its attendance at P. T. A.'s by leaps and bounds. They had raised money by meetings, by a pie social and other means sufficient to equip the playground and maintain a playground and leave \$40 in the treasury. Volunteer labor had made the money go farther. The first week in June will witness a cantata at the school.

The Lowell school ended a successful year with the high spots a program at Christmas and a Frolic in March, with money earned for milk for children who needed it, and a basket ball and volley ball from the sale of cake and other delectables by the boys and girls.

The music of the rest of the evening consisted of the vocal duet by Bernice Samuelson and Violet Stanley, very much enjoyed, and a solo by Russell Putz, entitled "My Own Home Town."

Hon. E. P. Scallion gave an address of unusual interest. It was well organized and to the point. He divided it into four main points.

First—The shift of parental responsibility due to the fact that parents were younger in spirit than the parents of a generation ago, and more the comrades of their children. He pleaded for the restoration of authority without the loss of the comradeship. As the home is, so the country is, and respect for the flag and the glory of the nation went hand in hand with respect for the home.

Second—The tendency to shift their responsibility to society, to leave to playground supervisors, to day nurseries, to the church and school the duties that were formerly assumed by fathers and mothers. He asked that we restore a more rational standard of living, teach the child the great lesson of self denial, and the idea that thrift is not a bourgeois virtue, but one of vital necessity for the welfare of the individual and the nation.

Third—The home should create an atmosphere of moral idealism; that it should have within its walls so fine an example of moral standards that the child would unconsciously absorb them. Ideals and standards are not taught; they are inculcated in the child from the influence of those around him. Nations depend for their very life upon the moral and spiritual strength of their citizens.

Fourth—He deplored the growth in the number of divorces, for a family divided was unable to bring up a child as it should be. The days of family prayer and grace seem to be passing, but need to be revived, for the early years of a child's life are the most formative, and the all important family standards determine his outlook in his later years.

Finally—He paid tribute to the women of the nation and urged all women to be not so modest about their achievements. If Edison's mother, or Madame Curie, or Florence Nightingale had hesitated because they felt their inferiority, the world might have lost much.

Mr. Scallion ended his speech by a tribute to the work of the various associations.

In a brief discussion after the talk, suggestions were brought up for later consideration in regard to bird and flower slides, the sending of a delegate to the Social Welfare meeting in September, and the acceptance of a memorial life of Harding from Mrs. E. J. Quinn.

Then the gathering adjourned to the domestic science rooms where refreshments were served. The cookies and sandwiches were made in the department, and served by the girls and Miss Wanou.

# GOLD, SILVER MEDALS ARE AWARDED

## GRADE SCHOOL TRACK MEET AT 3:30 FRIDAY

### FINAL TEAM COMPETITION FOR RIGHT TO HOLD SILVER CUP

### GOLD, SILVER, BRONZE MEDALS FOR WINNERS OF ALL EVENTS

The grade school track meet will be held on Friday afternoon at 3:30 o'clock, weather permitting. The afternoon classes are being shortened somewhat to permit dismissal of school a little early for the annual event.

The Harrison, Lowell and Lincoln schools are running very near equal, and their entrants in the meet will be watched with interest. The White school is entering boys in the younger group, and they will be dangerous in these events. The meet is divided into two divisions, for boys of 13 years and under, and for those above 13 years of age.

The events which will be run off are the 100 and 220 yard dashes, half mile run, half mile relay, high jump, broad jump, pole vault and shot put. Points are 5, 3 and 1 for 1st, 2nd and 3rd places respectively.

Gold medals will be awarded for first places in the older group, with bronze medals for second places, and white ribbons for third places. In the younger group, first place winners will get silver medals, second place winners red ribbons and third place winners white ribbons.

The school winning the greatest number of points in the entire meet will receive the Rotary club silver loving trophy, won last year by the Harrison school. Winning it one year entitles a school to hold it until the next year. Winning it twice gives a school permanent possession of it. The Harrison school has a chance to get it permanently by winning it again Friday.

The meet is being conducted under the direction of H. C. Beresford, and members of the high school track team will assist him in starting and refereeing. The Sea Scouts, under Perry Newton, will be in charge of policing of the grounds during the meet.

The public is invited to attend and see the events.

### When Jesse Lasky First Viewed "The Wanderer"

When Jesse L. Lasky, first vice-president of Paramount, in charge of production, first viewed the Raoul Walsh production, "The Wanderer," which comes to the New Park Friday for a run of three days, he hailed it as a picture which marked a new

WILLIAM COLLIER JR. AND KATHRYN HILL IN "THE WANDERER" A PARAMOUNT PICTURE

milestone in the advance of motion-picture ideals and artistry.

He saw this picture as the oldest dramatic theme of adventure—youth and sorrowing age—that of the wandering boy beset by the world's pitfalls, while the mother yearns for his return, fearing for his safety, with a tear in her eye and a crushing weight at her heart.

"On three past occasions," said Mr. Lasky, "I sat in the same projection room and was the first to view 'The Ten Commandments,' 'The Covered Wagon' and 'Peter Pan'."

"I can say with deepest sincerity that 'The Wanderer' is a production of equally as great magnitude."

### STOCK MARKET JOLTED

New York, May 20.—(UP)—The stock market was jolted at least temporarily out of the lethargy it has displayed of late by the action of Hudson Motors directors in declaring a 20 per cent stock dividend and increasing the cash payment to an annual rate of \$3.50 a share against \$3 previously paid.

Hudson was active all day, selling above 60, then back to 57 on original reports that there was no change in the dividends. When the facts came out the stock advanced rapidly from its low, something like 100,000 shares being traded in, in a single hour.

The remainder of the list which had given some evidence of underlying strength in the morning followed the upward move of the motors led by Hudson with trading more active than it has been in days.

## Why Men "Crack"

When on the Highway to Success

### What Do These Things Tell You?

"Sleeplessness," Doctor Kennedy tells us, "is one of the commonest signs of nervousness. Another is physical unrest. You are showing signs of nervousness when you cannot keep from twitching your eyebrows, shrugging your shoulders, swinging one foot when your legs are crossed; or when you cannot sit at a desk or table without continually tapping with the fingers."

"The nervous man very often finds that he cannot concentrate on one task, but continually goes from one thing to another. He is also very apt to lose interest in the work and recreations that formerly gave him pleasure. And he is easily fatigued. Nervous fatigue is most commonly indicated by a constant feeling of tightness around the head."

THE worry and strain of recent years has been too much for many business and professional men who have not been able to break away from the details and anxieties associated with their occupations.

In a moment you will recall many who have broken down suddenly just when they appeared to be in their prime.

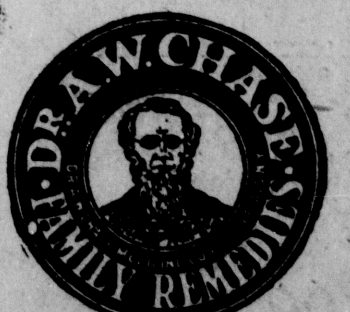

Some have had their lives snuffed out

while others have lingered as invalids, lacking the energy and nerve force necessary for the pursuit of their vocations.

The warning symptoms as outlined above by Dr. Kennedy in the American Magazine are well worth a careful study, because with this knowledge you can then detect the indications of failing nervous energy while yet there is time to prevent serious results.

A few days away from the scene of your worries, rest and moderate exercise in the open will help to get you started on the way to better health. Your recovery will be greatly hastened by the use of Dr. Chase's Tonic Pills.

You will not be using this restorative treatment long before you will find your self sleeping and resting better. And this is what you need above all else.
